I hereby acknowledge that I have read this application and state that the above is correct and agree to comply with all City Ordinances and State Laws regulating zoning and building construction, electric installation and/or heating and air conditioning installation. I agree to comply with approved drawings and keep approved drawings on the job site. I understand that any deviation from the approved plans must be authorized by the approval of the revised plans, subject to the same procedure established for the examination of the original plans, and that an additional fee may be charged, predicated on the extent of the variation from the original plans. I also acknowledge I am the property owner, or am authorized to act as the owner's agent in obtaining this permit. I acknowledge that permits with no inspection activity for 6 months shall be expired. Subsequent inspections will not be performed until permit has been renewed and payment of any additional fees has been completed. I understand that it is the responsibility of the owner/owner agent to call for all required inspections and that 24 hours notice is required for all inspections.

** NOTE: Inspections are limited to two (2) trips – initial inspection and one (1) re-inspection, if required. Any subsequent inspections will require payment of a re-inspection fee of \$20.00 before inspection will be made.

FAIRBORN CODIFIED ORDINANCES

1311.08 SPECIAL AND SAFETY INSPECTIONS.

When any person shall desire an inspection and/or report for any existing building or part thereof, or other special services, a fee of thirty dollars (\$30.00) per hour or portion thereof shall be charged for such inspection or services, report preparation, or other requested presentations.

ELECTRICAL INSPECTION FEE; REINSPECTION.

The minimum fee for any electrical *reinspection* shall be **twenty dollars (\$20.00)**. Where additional inspections or trips are made necessary by incomplete or faulty work, an incorrect address given, or failure to keep an appointment, or similar reasons, no fee shall be charged for the first re-inspection but a fee of **twenty dollars (\$20.00)** may be charged at the discretion of the Building Official for each additional reinspection or extra trip.

COMMENCING OF WORK PRIOR TO ISSUANCE OF ELECTRICAL PERMIT.

The fee for making necessary investigations prior to issuance of an electrical permit shall be equal to the fee for such permit and shall be in addition thereto, but in no event shall such investigation fee exceed five hundred dollars (\$500.00).

PLAN REVIEW FEE.

In addition to any other fees specified in this chapter, any person or persons submitting plans requiring review under the Ohio Building Code shall pay a plan review fee. Prior to issuance of a building permit, the plan review fee shall be assessed at the current City contractor hourly rate for plan review, and is based upon time necessary for the particular plan review. Any actual costs for transporting or otherwise processing plans shall also be charged.

PENALTY.

Whoever violates any section of this chapter shall be guilty of a misdemeanor and shall be fined not more than five hundred dollars (\$500.00) or imprisoned not more than ninety days or both. No person shall be imprisoned under any section of this chapter for the first offense, and the prosecution shall always be as if for a first offense unless the affidavit upon which the prosecution is initiated contains the allegation the offense is a second or repeated offense. Each day's continuance of the violation shall constitute a separate offense.

SECTION 103.2.4.2 OF THE OHIO BUILDING CODE REQUIRES:

Each political subdivision that prescribes fees pursuant to Division (E) of Section 3781.102 of the Ohio Revised Code shall also collect on behalf of the Board of Building Standards an assessment equal to three percent (3%) of those fees imposed for approvals, the acceptance and approval of plans and specifications, and for the making of inspections.

SECTION 1301.05 PERMIT EXPIRATION

Permits issued for buildings regulated by this chapter shall expire six months from the date of issuance if no building construction has begun. Also, the permit shall expire if construction is terminated for any six consecutive months after construction has begun. Failure to request inspection during the six months period shall be evidence of construction termination. (Ord 15-92. Passed 3-16-92)
