

HYPER-REACH EMERGENCY NOTIFICATION

What is Hyper-Reach

Hyper-Reach is a notification system used by the City of Fairborn to contact citizens about any important information, which requires timely dispersal. All land line phones in Fairborn are automatically listed to receive calls.

An important benefit of this system is the automatic emergency notification from the National Weather Service in the event of severe or threatening weather to a particular area.

Other Ways to be Notified

In addition to land line notification, citizens of Fairborn can sign up to receive a call and/or text message on their cell phones as well as receive e-mail alerts. In order to register your e-mail address and cell phone, visit hyper-reach.com/ohgreenesignup.html.

PROGRAMS FOR OUR CITIZENS

- FAIRBORN FIRE DEPARTMENT SMOKE DETECTOR PROGRAM
- CARBON MONOXIDE DETECTOR PROGRAM
- OPERATION SAFETY NET
- HYPER-REACH

City of Fairborn

44 W. Hebble Avenue
Fairborn, OH 45324
p: 937.754.3080

FAIRBORN FIRE DEPARTMENT SMOKE DETECTOR PROGRAM

An inexpensive smoke detector with new batteries may save your life in case of a fire. A simple alert will warn you of a fire so that you can get out of the house. To stress the importance of working smoke detectors, the Fairborn Fire Department implemented the Smoke Detector Giveaway Program with the assistance from community partners.

How To Register

To register for the program, call the Fairborn Fire Department at 754.3085.

Residents can also register at any fire station. The program is open to Fairborn residents, only.

Elderly and parents

with small children will be given first priority, while supplies last.

Maintain Your Detectors

- Install a smoke detector on each level of your home, especially near bedrooms.
- Test the detector monthly.
- Replace the smoke detector's batteries at least twice a year when you change your clocks.
- Replace any smoke detector more than 10 years old.

OPERATION SAFETY NET - A telephone check-in program for seniors

Imagine living alone without anyone to check on your well-being. Then imagine falling and not being able to reach the telephone for help. With that in mind, the Fairborn Fire Department implemented a telephone check-in program, Operation Safety Net, to keep in touch with seniors who live alone.

How to Register

To be a part of this program, simply call 754.3111. Registrants will need to provide the following information: name, address, age, any medications taken, family doctor, hospital preference, and next of kin. This information is strictly confidential and will only be used for emergency purposes.

How the Check-In Works

After registration, you will call 754.3111 daily during a designated time. The telephone is manned by Fire Department volunteers. A voice mail telephone feature allows you to leave a message if you're leaving home prior to your designated call time.

When you check in, your call is recorded on a master list. If you miss your designated time and did not leave a message, a volunteer will call you. If you can't be reached by telephone, fire personnel will visit your home to check on your safety.

CO DETECTOR PROGRAM

During the winter months when the furnace is running almost nonstop, there is an odorless, colorless, tasteless, and potentially hazardous gas that can invade your home - carbon monoxide (CO). This gas can be deadly in a closed, tightly insulated area. A carbon monoxide detector may save your life by alerting you if the gas is present in your home. The Fairborn Fire Department has implemented the Carbon Monoxide Detector Giveaway Program.

Warning Signs of CO Poisoning

Low levels of CO can cause headaches, nausea, fatigue, dizziness, confusion and irritability. High levels of long exposure to CO could cause vomiting, loss of consciousness, and eventually death. If you suspect CO poisoning, get everyone out of the house immediately and call 9-1-1.

How to Register

To register for the program, call the Fairborn Fire Department at 754.3085. Residents can also register at any fire station. The program is available to Fairborn residents, only. Elderly and parents with small children will be given first priority, while supplies last.
